Pandas	Numpy
Scikit-learn	NLP
Machine Learning and Deep Learning	Tableau
Python	Business Strategy
Git/GitHub	Operations Management
Bilingual (Spanish)	

## PROFESSIONAL EXPERIENCE

### General Assembly

Remote

*Data Science Immersive Fellow*

January 2022 - April 2022

- 12-week, 500+ hour training program focusing on the ability to analyze, make sense of, convey data-driven facts from massive data sets, and predict what happens next through predictive modeling and pattern recognition. Description of recent projects:
  - o *Style of Play in the NBA* – Analyzing the evolution of styles of play implemented by NBA teams from 2012 to 2022, through the lens of a K-Means Clustering model.
  - o *Predicting Subreddit*. Web-scraped data from two different subreddits, analyzed the text using Natural Language Processing, and built a Random Forest classification model to predict which of the two subreddits a given bit of text came from.
  - o *Covid Vaccination Data and U.S. Politics*. Clustered U.S. counties based on only county covid vaccination data. Then using that same data, built a stacking classification model to predict how those counties voted in the 2020 election.

### Freebirds

Goleta, CA

*General Manager*

August 2011 - January 2022

- Analysis of financial statements and adjusting business strategy accordingly. Any recommendations to the owner had to be justified by statistical analysis.
- Accounts Payable. Ensuring 30+ vendors were paid in a timely manner.
- Administered and processed payroll, requiring accuracy of record keeping and timeliness to ensure compliance with all applicable state and federal laws.
- Managing 60+ employees including development and performance review.
- Recruiting and hiring. Interviewing, onboarding, and training.
- Food quality. Responsible for upholding the restaurant's extremely high standards for freshness and flavor. Developed systems to numerically evaluate and record the quality of ingredients.

*Assistant Manager*

June 2008 - August 2011

- Projecting hourly sales, for every hour of operation, based on detailed analysis of historical sales data & trends. Based on these projections, scheduling and adjusting labor.
- Scheduling for 60+ coworkers
- Creating and re-formatting forms to analyze data using Microsoft Excel and Google Sheets.
- Maintaining and troubleshooting issues for computers, points of sale and surveillance systems.
